Career Objective

AI & Data Science graduate with a strong foundation in Python, Machine Learning, Deep Learning, NLP, SQL, and data visualization, seeking an opportunity to apply analytical and predictive modeling skills to support data-driven decision-making in a professional environment.

Education

Srinivas Institute of Technology

B.E in Artificial Intelligence and Data Science

2022 – 2026

CGPA: 8.54/10

SMS PU College

Pre-University Course (PCMB)

2020 – 2022

85.6%

Shree RajaRajeshwari English Medium High School

SSLC / Class X

2008 – 2020

91.67%

Projects

DharaaAI - Powered Agricultural Advisory System | Python, ML, FastAPI, Node.js, React.js, Supabase

Dec 2025

- Developed DharaaAI, an AI-powered agricultural advisory system that delivers real-time crop and fertilizer recommendations by processing soil, climate, and location data using Machine Learning (Decision Tree, Random Forest) with a React-Node.js-FastAPI architecture and Supabase backend.

Soccer Player Re-Identification | Python, PyTorch, OpenCV, YOLOv11, Deep SORT

July 2025

- Built a real-time soccer player re-identification system using YOLOv11 for player detection and Deep SORT for multi-object tracking, generating annotated match videos with consistent player IDs using Python, PyTorch, and OpenCV.

StartUp Investment analysis | Tableau, SQL, Python

Sept 2025

- Analyzed and visualized investment-trend data from the Shark Tank India dataset, achieving accurate insights into funding patterns and investor behavior.

Healthcare Appointment No-Show Analysis | Power BI, DAX, Python, Pandas, NumPy, Matplotlib, Excel

Nov 2025

- Developed an interactive Power BI dashboard using Power BI, DAX, Excel, and Python (Pandas, NumPy) to analyze 57K+ healthcare appointment records, uncovering a 19.71% no-show rate and key drivers to support data-driven healthcare planning.

Skills

Programming Languages: Python, C, JavaScript, SQL

Web Technologies: HTML, CSS, React.js(Basics)

Frameworks & Tools: Flask, Supabase(Basics), Git, VS Code, Github

Database management: MySQL, MongoDB

ML & Data Science: Scikit-Learn, Pandas, NumPy

Operating Systems: Windows

Soft Skills: Teamwork, Problem Solving, Adaptability, Time Management, Attention to Detail.

Certifications

Deep Learning with TensorFlow, Machine Learning with Python, IBM (Sep 2025)

Data Analytics Job Simulation, Deloitte (July 2025)

IT Specialist – Artificial Intelligence, Certiport (Dec 2024)

Achievements

- Served as Placement Coordinator for the AI & Data Science Department, coordinating placement activities.
- Presented and published the research paper “SmartAgro: An AI-Powered Advisory System for Crop Selection, Fertilizer Optimization, and Sustainable Farming” at ICRICS 2025 and in the *Journal of Emerging Technologies and Innovative Research (JETIR)* conference proceedings.
- Completed the EduSkills AI-ML Virtual Internship (Google Cloud) and actively participated in AI-ML workshops and 24-hour and 8-hour coding hackathons organized by GDSC and SSOSC.
