## About

AI Data Science enthusiast with skills in Python, Machine Learning, Deep Learning, SQL, and Data Visualization. Experienced in predictive modeling, data analysis, NLP, and delivering business insights through analytics.

## Education

**Srinivas Institute of Technology, Mangaluru** *Dec 2022 – Present*  
*B.E in Artificial Intelligence and Data Science - 8.8/10 GPA*

**SMS PU College, Virajpet PCMB** - 85.6 *2020 - 2022*

**Shree RajaRajeshwari English Medium High School, Cherambane.** *2020*  
*SSLC - 91.67*

## Experience

**Data Analyst Intern** *Remote*  
*Elevate Labs* *Sep 2025 – Present*

- Performing data collection, cleaning, and preprocessing for reliable datasets.
- Conducting Exploratory Data Analysis (EDA) and creating visualizations.
- Deriving insights to support business and technical decision-making.
- Hands-on with Python, SQL, Excel, and visualization tools in a collaborative environment.

**AI - ML Virtual Internship** *Virtual*  
*Eduskills* *10 Weeks*

- Learned cloud-based ML model building and deployment.
- Gained practical exposure to AI-ML problem solving.

## Certifications

- Goldman Sachs – Software Engineering Job Simulation
- AWS – AWS Academy Cloud Architecting
- Certiport – Data Analytics
- Cisco – Python Essentials
- Deloitte – Data Analytics Job Simulation

## Projects

**Crop Recommendation System** *CRS* [🔗](#)

- Built a crop recommendation model using soil climate data (**85–90% accuracy**); exported predictions to CSV.
- Tools: Python, Scikit-learn, Pandas

**Sales Advertising Analysis** *Sales Analysis* [🔗](#)

- Regression modeling of ad spend vs. sales (**80–85% model reliability**); processed datasets delivered insights.
- Tools: Python, Pandas, NumPy, ML

**Soccer Player Re-Identification** *Player Re-ID* [🔗](#)

- Real-time player detection tracking (**85–90% detection accuracy**); annotated videos with consistent IDs.
- Tools: Python, PyTorch, OpenCV, YOLOv11, Deep SORT

## Skills

---

- **Programming & ML/AI:** Python, OOP, Machine Learning, AI, NumPy, Pandas, Scikit-learn, OpenCV, PyTorch
- **Databases:** SQL, MongoDB
- **Web & Frameworks:** HTML, CSS, Flask
- **Data Analysis & Visualization:** Power BI, Tableau, Excel, Matplotlib, Seaborn
- **Soft Skills:** Attention to Detail, Analytical Thinking, Time Management, Communication, Collaboration

## Leadership & Achievements

---

- Placement Coordinator, AI & Data Science Department
- Completed EduSkills AI-ML Virtual Internship (Google Cloud)
- Participated in AI-ML workshops & hackathons (GDSC, SSOSC)
- Team participant in 24-hour and 8-hour coding hackathons
